

Report from the Treasurer

The last financial year proved to be another profitable one for the Club. We have added to our future reserve fund which has been ring fenced for the Club's future development, whether that be at St John's or a new venue.

Annual costs have increased greatly since we started here, mostly due to staff wages and annual increase to the minimum wage.

Membership numbers cover these costs, but we may have to consider increasing class fees when we re structure the classes, later in the year.

A copy of the latest financial accounts is available to view.

I look forward to seeing the Club continue to grow and provide a valuable and profitable asset to the community.
